

Solutions for the Thermal Power Sector

Of the many contracts in the Thermal Power Sector, one of the most challenging was the girder erection at Mettur Thermal Power Plant in Tamil Nadu.

This project was carried out using Demag CC 2600 500 Ton capacity crane. The heaviest girder erected was 115 ton at a height of 100 meters. Our crew competency and expertise made this execution successful, adhering to stringent safety norms.

Sector	Thermal Power
Crane	Demag CC 2600 Crawler Crane
Crane Capacity	500 Ton
Weight	115 Ton
Size	10 Mtr. X 0.6 Mtr. X 4 Mtr.
Location	Mettur, Tamil Nadu

Cost and time savings with precise equipment solutions. That's Ingenuity In Motion. Delivered.
