THE GLOBAL EXPERTISE BUILT WITH 25 YEARS OF EXPERIENCE

A quarter century of global expertise and experience has evolved us into the world leader in LCL consolidation and India's leading integrated logistics solutions provider, offering one-stop-solutions that empower businesses in India and across the world.

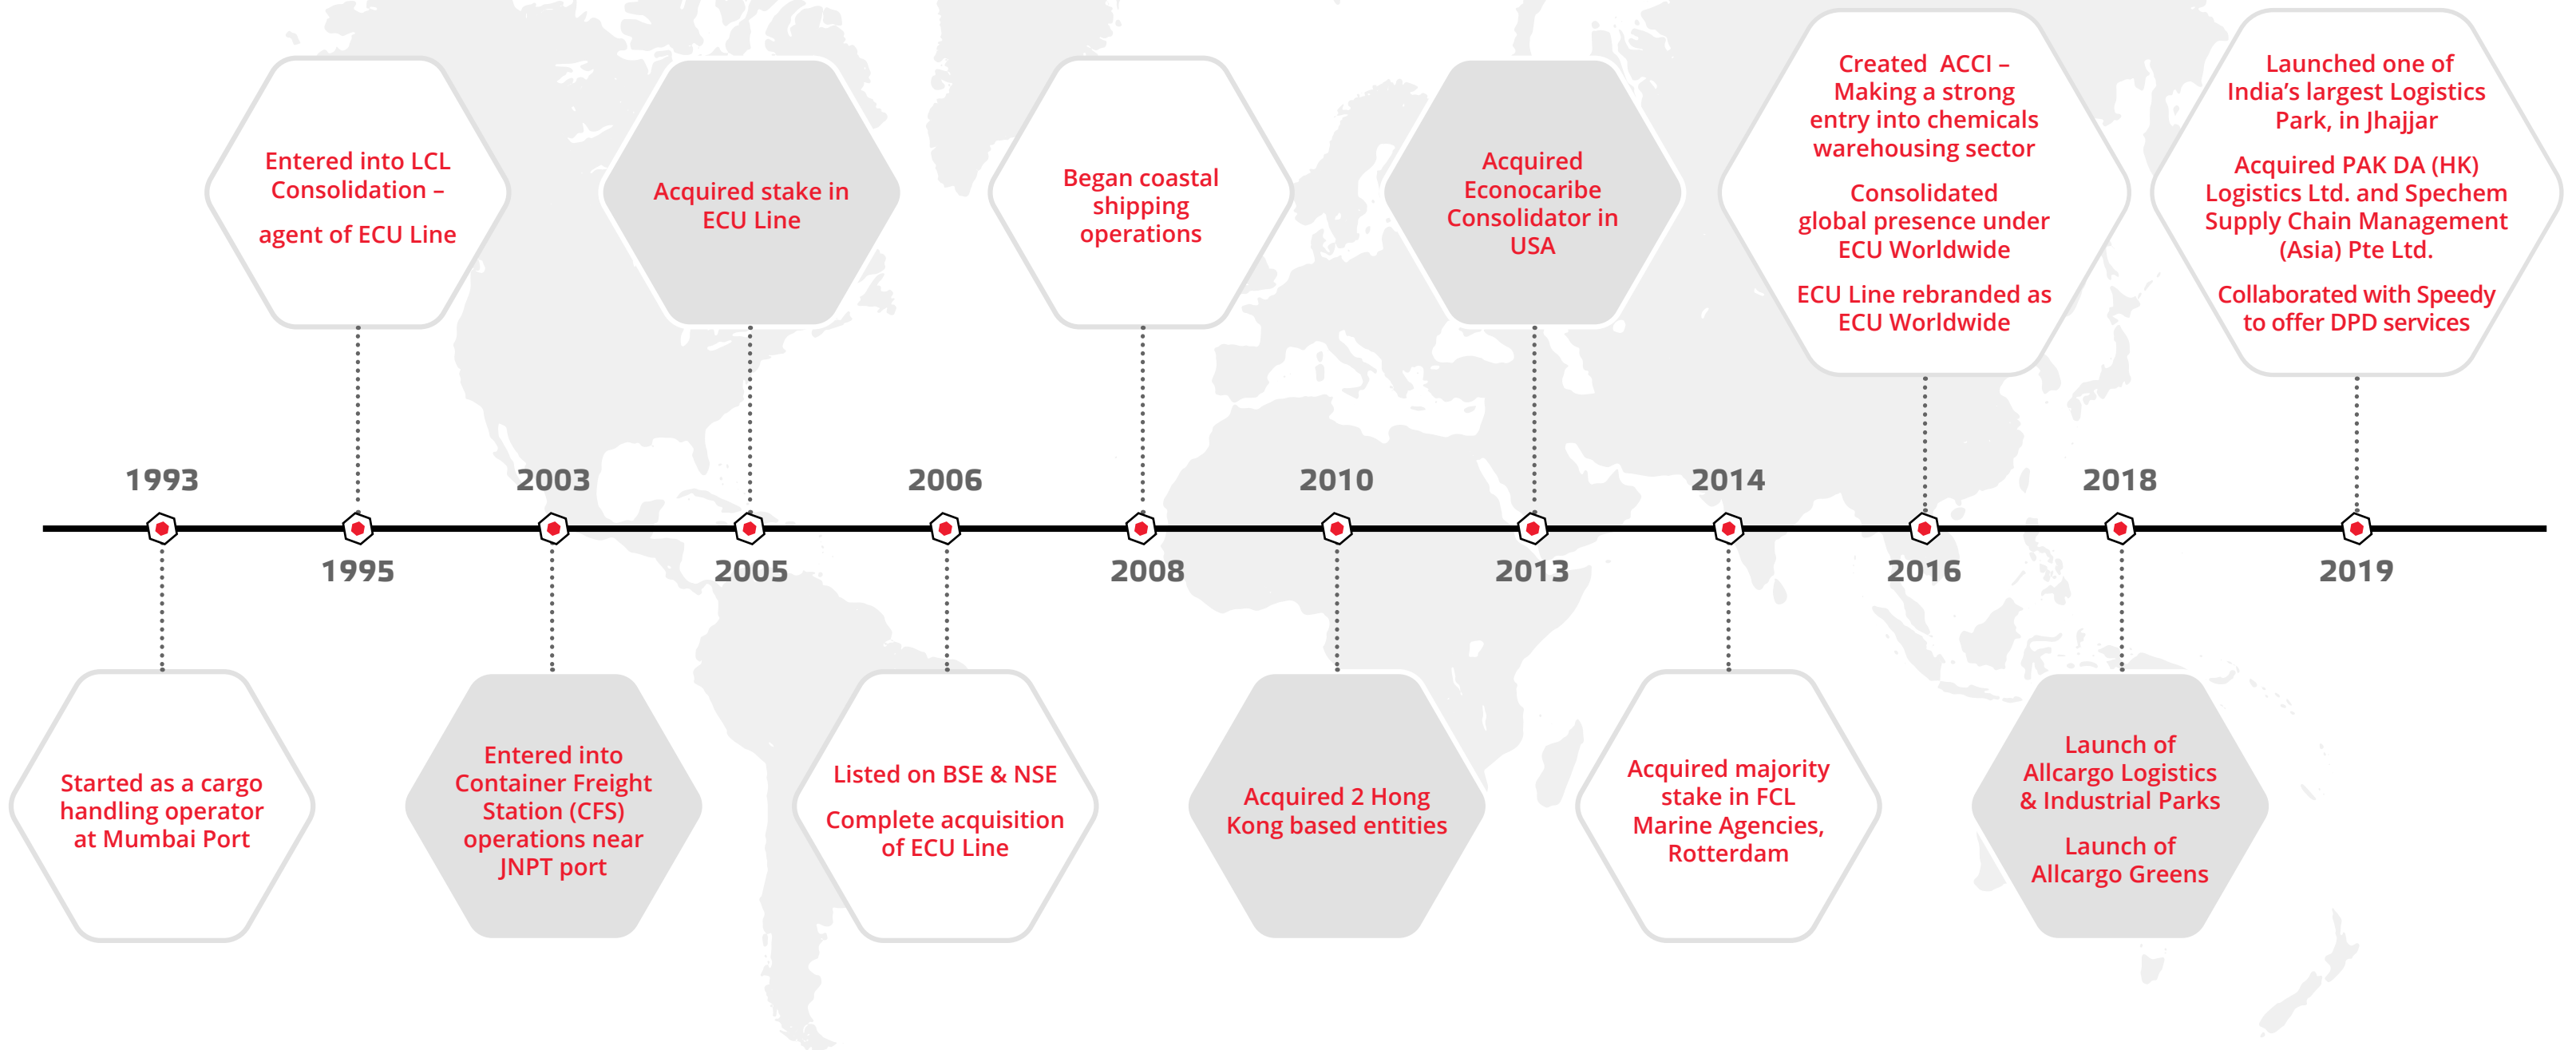

Our reach is powered by a strong global network of more than 300 offices in over 160 countries through our subsidiary, ECU Worldwide. And we are committed towards creating benchmarks of quality and consistency to create value for all our customers.

MORE THAN 300 OFFICES IN OVER 160 COUNTRIES

Services designed for your growth

OUR JOURNEY SO FAR

CFS-ICD Network

Benefit from world-class CFS-ICD services

As you explore new business horizons with imports and exports, you can now ensure that your cargo is always secure. Avail our pan-India Container Freight Station (CFS) and Inland Container Depot (ICD) facilities that meet international safety and security standards and compliances. In addition to the convenience of leveraging India's widest CFS-ICD network, you get a seamless and hassle-free experience with operations optimised using time-saving software and technology. You can count on our expertise and experience for ODC and Hazmat handling.

We understand the dynamic, diverse logistics and supply chain needs and engineering solutions that bring you the highest levels of profitability. And It is our commitment towards delivering beyond expectations that has made us the leader in CFS services in India.

Our Solutions

- › Import Handling
- › Hazardous Cargo
- › Export Handling
- › Bonded & Unbonded Warehouse
- › Reefer monitoring service
- › First & Last Mile Delivery
- › Specialized Cargo handling
- › Direct Port Delivery
- › ISO Tank

The assurance of safety and quality

Our CFS-ICDs ensure the highest levels of safety and security for your cargo. With well-trained and experienced teams backed by regular process audits, our safety and quality standards set the industry standard.

As the reputed leader in the CFS business, we keep international trade blazing ahead. Our pan-India network is equipped with world-class infrastructure and a capacity of 0.5 million TEUs. All backed by unmatched safety and security standards that include GSV (C-TPAT - compliant) and OHSAS accreditations.

Chennai

Current Capacity: 1,00,000 TEU
Total Area: 25 Acres
Distance from Port: 8 KM

Our Facilities

Nhava Sheva

Our Container Freight Station (CFS) facility at Nhava Sheva handles maximum volumes and offers you a great advantage in terms of connectivity to the port. With ample space for bonded and non-bonded warehousing, along with the presence of customs officials to ease operations, you can count on us for a smooth and seamless experience. We've implemented a number of innovative processes and equipment including e-tariff, e-Proforma and e-Payment technology, online Export SB declaration and Import Receiving, etc. to reduce redundancies and significantly increase efficiency.

Get in touch to see how our world-class CFS at Nhava Sheva in Mumbai can help you leverage new business opportunities to their fullest.

Chennai

Our Chennai Container Freight Station (CFS), one of the earliest to come up in the region and situated just 9 km from the port, offers you a huge benefit with its location. You can be assured of reasonably shorter transit times, given that the road to the port experiences high traffic congestion. If you're looking for convenient international operations, our Chennai CFS is best suited for all your needs.

In our Chennai CFS premises we also have an international trans-shipment hub catering to customers worldwide – a first in India service. We ensure smooth transit of your international cargo.

Experience the advantage of state-of-the-art technology platforms, experienced teams, world-class equipment and processes, and 24x7 safety and security at our Chennai CFS

Kolkata

If you're looking for one of the fastest turnarounds at Kolkata port and the convenience of last-mile delivery services, our Container Freight Station at Kolkata is just right for you. You can benefit from our end-to-end services such as customs clearance, freight forwarding and LCL and FCL consolidation services, as well as handling of Over Dimensional Cargo and the competitive edge of a single window for freight handling. The CFS at Kolkata is an ideal gateway to India's north-eastern regions as well as neighbouring countries in the Indian subcontinent.

Get in touch for world-class facilities and unmatched connectivity.

Dadri

Dadri, a part of western Uttar Pradesh, is of great strategic importance owing to its connectivity to major ports in India and industrial areas in the north Indian hinterland. If you want to make the most of this location as a base to plan further business operations, look no further than our Inland Container Depot at Dadri. You save significantly on time and costs with our LCL consolidation services for export and import cargo. Our facility is equipped with modern equipment such as reach stackers, forklifts that handle palletised cargo and open yard cargo, ensuring you smooth and seamless transfer from rail to road and vice versa.

Reach out for world-class, seamless logistics services.

Mundra

Situated close to the Mundra port, our state-of-the-art Container Freight Station at Mundra is one of the finest in India. If you're looking for an effective gateway into India's hinterland you can opt for world-class facilities at our Mundra CFS. With liners focusing on the Mundra port because of its faster service and quick turnaround time for their vessels, it would work perfect for your business to leverage a CFS facility of international standards in the vicinity of the port.

Reach out to experience the convenience of our world-class CFS services.
